CFM: Cubic Feet per Minute

\*All pressures are in inches of water.

Page #2 of 2

FPM: Feet per Minute

\* Blank areas denote NC values less than 10 and CFM values less than 50.

TP: Total Pressure, inches w.g.

\*Throw values are measured in feet for terminal velocities of 150/100/50 FPM.

T: Throw in feet

\*Throw values are based on fixed louvers set at 45 degrees.

NC: Noise Criteria

\* Throw may be increased or decreased by as much as 20% by changing angle of louver.
